ticket Struct Reference

Structure to store the bookings done. More...

`#include <`**`booking.h`**`>`

Data Fields

char **passenger_name** [30]
   Name of the Passenger. More...

char **departure_city** [20]
   Departure City. More...

char **destination_city** [20]
   Destination City. More...

char **airline** [20]
   Name of the airline. More...

char **flight_number** [10]
   Flight Number. More...

char **date** [10]
   Date of Journey. More...

char **booking_reference** [20]
   Reference number of the booking. More...

int **fare**
   Fare of the ticket. More...

bool **active**
   Status of booking - Valid or Deleted. More...

struct tm **dep**
   Departure time. More...

struct tm **arr**
   Arrival time. More...

Detailed Description

Structure to store the bookings done.

Contains fields to store the details of the passenger and the details of the journey

Definition at line **39** of file **booking.h**.

Field Documentation

---

bool ticket::active

Status of booking - Valid or Deleted.

Definition at line **60** of file **booking.h**.

Referenced by **deleteBooking()**, and **newBooking()**.

---

char ticket::airline[20]

Name of the airline.

Definition at line **48** of file **booking.h**.

---

struct tm ticket::arr

Arrival time.

Definition at line **64** of file **booking.h**.

Referenced by **feedDetails()**, and **newBooking()**.

---

char ticket::booking_reference[20]

Reference number of the booking.

Definition at line **56** of file **booking.h**.

---

char ticket::date[10]

Date of Journey.

Definition at line **52** of file **booking.h**.

---

struct tm ticket::dep

Departure time.

Definition at line **62** of file **booking.h**.

Referenced by **feedDetails()**, and **newBooking()**.

char ticket::departure_city[20]

Departure City.

Definition at line **44** of file **booking.h**.

char ticket::destination_city[20]

Destination City.

Definition at line **46** of file **booking.h**.

int ticket::fare

Fare of the ticket.

Definition at line **58** of file **booking.h**.

Referenced by **feedDetails()**.

char ticket::flight_number[10]

Flight Number.

Definition at line **50** of file **booking.h**.

char ticket::passenger_name[30]

Name of the Passenger.

Definition at line **42** of file **booking.h**.

The documentation for this struct was generated from the following file:
